AMENDMENT

Commissioner for Patents

Washington, D.C. 20231

Sir:

In response to the Notice of Defective Response mailed October 11, 2002 in the above-referenced application, applicants request that the originally filed specification be amended to replace the originally filed sequence listing with the attached sequence listing. On November 11, 2002, Applicants filed a Computer Readable Form of the attached sequence listing by means of the USPTO's electronic filing service. The electronic filing also included the required statements that the paper sequence listing and the CRF are identical and neither includes any new matter. A copy of the electronic filing receipt and the Notification of Defective Response are also attached.

Respectfully submitted,

F. Aaron Dubberley
